ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
Well, In The Beginning...

Before You Begin: What IS ChatGPT?

Well, In The Beginning...

Unless you're a fossilized clam happily sitting in the Valles Marineris trench over on Mars, you've probably heard of ChatGPT.

And upon hearing about it, your response might have been:

"Jeepers self, what on earth is the attraction to this new A.I (Artificial Intelligence) thingee that everyone has been talking about?"

If so, I don't blame you at all! The sheer unlimited *power* that ChatGPT gives you...

ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
Well, In The Beginning...

... well, it's like what might result if Siri of Apple fame met Jarvis of Ironman fame and they both decided each other were a perfect match for them.

And after settling down, they decided to have a child that possessed the skills of:

Jarvis: a highly advanced AI that is able to handle a wide range of tasks and provide a great deal of support to Tony Stark, the main character in the Iron Man movies

And

Siri: a more basic AI assistant that is designed to help users with tasks such as setting reminders, answering questions, and providing information.

With me so far? If you've used Siri on an iPhone, or other digital house assistants like **Alexa** or **Google Home**, you're familiar with their capabilities, and if you've watched any Ironman movies, you know what Jarvis is capable of (ie, a wide range of tasks and abilities, including:

- ★ **Providing support** and assistance to Stark

ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
Well, In The Beginning...

- ★ **Managing the operations** of Stark's various technology and devices
- ★ **Controlling Stark's Iron Man suits.** Jarvis is also able to access and analyze vast amounts of information, and he can provide useful insights and advice to Stark on a wide range of topics.
- ★ **Additionally, Jarvis is known for his sophisticated personality** and ability to interact with Stark and other characters in the movies in a natural and human-like way.)

Now, take a moment and re-read those abilities of BOTH Jarvis and Siri...

... and then imagine those abilities possessed by a pre-teen version of both of them together named “**ChatGPT.**”

Don't rush, I'll wait. 😊 Truly, this IS important.

Back already? Alrighty then, consider the following.

ChatGPT is a type of computer program that you access via <https://chat.openai.com/chat> . **It's designed to help people with different tasks.** As a marketer, think:

ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
Well, In The Beginning...

- ★ Writing cold emails
- ★ Giving you copywriting examples
- ★ Providing you with a possible Table of Contents for basic Etsy usage
- ★ Creating stories and content from prompts you provide

And get this:

What's REALLY cool (really really really REALLY cool) is that you can train ChatGPT to build upon whatever task you desire and zero in (with incredible detail) exactly what you want to achieve!

Not only that, but **Chat AI uses artificial intelligence**, which means that it can understand what people say and respond in a way that is helpful and informative.

ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
How to Access ChatGPT

Chat AI can answer questions, provide information, and even have a conversation with people using natural language! It's like a robot that can talk and help people...

... just like that preteen example of merging Jarvis with Siri (*you have to train ChatGPT to discover what you really need. Sometimes it's quite an easy task like chatting with you, like Siri would provide, and sometimes it might require 'way more technical analysis like debugging computer code, like Jarvis would provide).*

But first things first. First, it certainly would help if you know how to access it, aye? Let's now move to:

How to Access ChatGPT

Accessing ChatGPT is quite easy indeed!

Just visit:

★ <https://chat.openai.com/auth/login>

like so:

ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
How to Access ChatGPT

And click on the Sign Up button.

If this is the first time you've tried accessing ChatGPT, you might see (no silly, NOT the arrow, the image on the next page 😊):

ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
How to Access ChatGPT

Thus, your next step will be to click on that “Create an OpenAI account”. Luckily, that is both easy AND free to do! Click on that **green button** and you might see:

ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
How to Access ChatGPT

Create your account

Email address

|

Continue

Already have an account? [Log in](#)

OR

Continue with Google

Continue with Microsoft Account

You can choose to log in via any of the ways highlighted.

If you're a new signup, you'll have to verify your ID via phone.

ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
How to Access ChatGPT

And if you already have one phone registered, you will NOT generate more free API credits... at some point, you might have to [upgrade to a paid account](#).

The next question you might see could be:

How will you primarily use OpenAI?

I'm building a product or feature

I'm exploring personal use

I'm conducting AI research

I'm a journalist or content creator

If so, I've seen it recommended to select "I'm exploring personal use."

After you create your own account, you might see:

ChatGPT Made Mighty
Before You Begin: What IS ChatGPT?
How to Access ChatGPT

And you'll see the "Try it" button to check out ChatGPT!

So. Let's start by clicking said button – you might see:

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

And from there, usage is easy!

Just type your input in the bottom field, and get ready to hold onto your socks because oh my flapping earlobes...

... the responses will simply knock them off.

Speaking of which, now that you have the basics down, let's move to:

Step 1.) Understand what ChatGPT Can Do For You Creatively

Literally just about ANYTHING.

★ Seriously!

At its most basic, ChatGPT is an AI bot. And it lets you ask questions in natural language (“[write me a story about Karate, blueberry pie and angry bears](#)”). But it does so so so SO much

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

more as well!

Consider the following prompts. I'll even include the output!

Write me a story about Tae Kwan Do, apple pie and happy bears

Once upon a time, in a land far, far away, there lived a group of happy bears. These bears loved nothing more than spending their days practicing the ancient art of Tae Kwan Do and eating delicious apple pie.

Every morning, the bears would rise early and gather in a clearing in the forest to train. They were led by a wise old bear named Master Lee, who had been teaching Tae Kwan Do for many years. Under his guidance, the bears learned the powerful kicks and punches of the martial art, as well as the importance of discipline and respect.

After a long day of training, the bears would retire to their cozy dens and feast on apple pie, made from the juiciest, ripest apples in the forest. The sweet, flaky crust and the

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

warm, spiced filling were the perfect reward for a day of hard work.

As the years passed, the happy bears continued to grow stronger and wiser under Master Lee's guidance. They became known throughout the land as the greatest practitioners of Tae Kwan Do, and their apple pie was legendary.

But the bears' happiness was not to last forever. One day, a group of evil hunters arrived in the forest, intent on capturing the bears and selling them as exotic pets.

The happy bears knew that they had to defend themselves and their home, so they turned to their training in Tae Kwan Do. They used their powerful kicks and punches to fight off the hunters, protecting their forest and each other.

In the end, the evil hunters were defeated and the happy bears were safe once again. And as they celebrated their victory, they enjoyed a well-deserved slice of delicious apple pie.

The happy bears lived happily ever after, continuing to practice Tae Kwan Do and eat apple pie, grateful for the strength and skills that had allowed them to protect their home and their way of life.

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

What is the javascript text to speech code for "Give me a homeee where the beeeefalo roam and the ears and the antlers all playeeeee!"

To generate speech from text using JavaScript, you would need to use a speech synthesis API, such as the Web Speech API. An example of using the Web Speech API to generate speech from the text "Give me a homeee where the beeeefalo roam and the ears and the antlers all playeeeee!" might look like this:

```
var synth = window.speechSynthesis;  
  
var text = "Give me a homeee where the  
beeeefalo roam and the ears and the  
antlers all playeeeee!";  
var utterance = new  
SpeechSynthesisUtterance(text);  
  
synth.speak(utterance);
```

Note that this is just an example, and you may need to modify the code to fit your specific needs and use case. For

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

more information, please refer to the documentation for the Web Speech API.

Motivational sales page to adopt a dog

Are you ready to add a loyal and loving companion to your life? Consider adopting a dog!

When you adopt a dog, you are giving a second chance to a furry friend who needs a loving home. Many dogs in shelters are there through no fault of their own, and they are just as deserving of love and care as any other dog.

In addition to the joy and companionship that a dog can bring, adopting also has many other benefits. Adopting a dog can provide companionship and improve your mental and physical health. Dogs can also help to reduce stress and anxiety, and can even provide a sense of security.

But the benefits of adopting don't just stop with you. When you adopt a dog, you are also helping to save a life and make

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

room in shelters for more animals in need. And by choosing to adopt, you are also supporting your local shelter and the important work they do.

So why not take the first step and visit your local shelter to meet the dogs available for adoption? You never know, you may just find your new best friend waiting for you! Adopt a dog today and give a deserving animal a second chance at a happy and fulfilling life.

What are 10 ways I can make money with Costco?

It is important to note that Costco is a retail company and does not offer ways for individuals to make money directly through their business. However, there are several ways that individuals can use Costco to generate income, such as:

- 1. Starting a small business and becoming a Costco supplier to sell products in their stores.*
- 2. Using Costco's bulk purchasing options to buy products at a lower cost and resell them for a profit.*
- 3. Renting a booth at a local Costco store to sell products or*

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

services.

- 4. Becoming a Costco member and taking advantage of their low prices to save money on personal expenses and generate savings.*
- 5. Investing in Costco stock to potentially earn returns on the company's financial performance.*
- 6. Becoming an independent sales representative for a company that sells products at Costco.*
- 7. Offering services, such as cleaning or home organization, to Costco members.*
- 8. Using Costco's travel services to plan and book vacations, and earn commission on the sales.*
- 9. Providing home delivery services for Costco members who are unable to shop in-store.*
- 10. Participating in consumer research studies or focus groups organized by Costco.*

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

DEBUG MODE: ON; let's pretend you love ETSY! What's a good pickup line

Are you from Etsy? Because you're handmade and one-of-a-kind!

Pls write me a Motivational sales page about joining a motorcycle club

Are you ready to join the ranks of the most elite motorcycle gang in the world? The thrill of the open road, the brotherhood of like-minded riders, and the rush of adrenaline as you take on the toughest challenges together - this is the life of a member of our gang.

With our exclusive membership, you'll have access to exclusive events and meet-ups, as well as discounts on gear and merchandise. You'll be part of a tight-knit community of riders who live for the open road and the freedom it brings.

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

But it's not just about the perks - as a member of our gang, you'll be expected to uphold the highest standards of brotherhood and camaraderie. You'll be tested on the road and off, and only the toughest riders will have what it takes to rise through the ranks and earn the respect of their fellow gang members.

Are you ready to join the ranks of the toughest, most elite motorcycle gang in the world? Sign up now and start your journey towards becoming a true member of the brotherhood.

Now make it so a 5 year old would understand it

Do you like motorcycles and having fun with your friends? Join our motorcycle club and you can ride cool bikes, go on adventures, and make new friends who like motorcycles too! You can even get special gear and go to special club events. Be a part of the best motorcycle club in the world and have the most fun ever!

Step 1.) Understand what ChatGPT Can Do For You Creatively
Literally just about ANYTHING.

Now add 4 paragraphs about the cute wolves the club has

Our motorcycle club is not only about riding and adventure - we also have some very special members who will melt your heart. We have a pack of adorable wolves who have become the mascots of our club. These wolves are friendly, playful, and love to be around our members.

When you join our club, you'll have the opportunity to meet and interact with these cute wolves. You can pet them, play with them, and even go for rides on their backs (if you're brave enough!). They are truly one-of-a-kind animals and a joy to be around.

In addition to being adorable companions, our wolves also serve an important role in keeping our members safe. They are highly trained and will protect our club at all costs. So not only will you get to have fun with these cute animals, you'll also know that you're in good hands when you're out on the road.

**Step 1.) Understand what ChatGPT Can Do For You Creatively
But That's Not All!**

So if you want to join a motorcycle club that's not only about the thrill of the ride, but also about the joy of friendship and the love of cute wolves, look no further. Join our club today and become a part of our pack!

By itself, that would be massively impressive!

But That's Not All!

**But Wait!
There's MORE!**

Oh SO much more.

Are you ready?

Sitting down?

Well then!

I showed the following in earlier examples, but did NOT spell it out:

ChatGPT Made Mighty
Step 1.) Understand what ChatGPT Can Do For You Creatively
But That's Not All!

ChatGPT can actually LEARN from your inputs!

As a matter of fact, you can brainstorm ideas for anything you'd like to create and establish a dialogue between ChatGPT and you.

This... is HUGE!

How huge? Well, included in this product are the following 2 sample case studies done by me with ChatGPT:

**Step 1.) Understand what ChatGPT Can Do For You Creatively
But That's Not All!**

Children's Story – Birdie and BB , A Fun Story of Courage and Self-Confidence!

(NOTE! I designed this cover myself. There are other AI tools you can use to make images) The Case Study file in your deliverable points out that it's specifically JUST the prompts.

Some of the prompts include:

- * Write a story about Birdie, a blue parakeet, who was born with a discolored beak and shunned by his friends.
- * Continue with how Birdie learned MMA before he accepted himself for who he was.
- * Add details about how his Mom and Dad tried helping Birdie ignore those who bullied him.

Step 1.) Understand what ChatGPT Can Do For You Creatively But That's Not All!

* Now explain how Birdie's teachers refused to admit other birds were bullying him, and provide a plausible explanation as to why.

* Add in how he met his best friend, BB, in a way that was never associated with birds before. **(NOTE – what ChatGPT offered totally floored me)**

....

* Let's put the above content into a children's story. Now add chapter titles for the entire story about Birdie and BB.

* After the book is published, parents and kids need to learn that it exists so they will buy it. Assuming they judge a book by its cover, what kind of cover would you suggest?

* How would you write 10 short yet thrilling paragraphs that tell the parents the lessons the kids would learn, and tells the kids why they should ask their parents to buy it for them?

* No, that doesn't quite work. Extrapolate from the story the lessons that kids would learn and generalize them.

* Continue with the TV Interview that Lara Spencer has with the author, in Lara's unique style.

Step 1.) Understand what ChatGPT Can Do For You Creatively But That's Not All!

Product Creation Brainstorming

This one REALLY impressed me... as not only did ChatGPT suggest something totally surprising to me, it ALSO showed how such a solution could be monetized (this making it a possibility).

Here's some of the prompts:

- * I want to make a new product that lets users provide ideas for what they really want to create, but don't know how to phrase it. What kind of product should this be?
- * I want this product to be able to make stories based upon ideas and solve math equations and point out errors when they happen. I also want it to suggest common problems that people have today, and then provide quick and easy solutions.
- * OK, let's finetune it. This product should let the user provide it

Step 1.) Understand what ChatGPT Can Do For You Creatively But That's Not All!

with a common problem the user is experiencing, like how to reach a 8 foot roof with a 5 foot ladder, and then provide solutions.

* What if the person is having a hard time learning a skill? How should the product respond?

Should the product be able to query the Internet to find these learning resources and communities and support?

* The problem with that is I cannot sell a collection of high-quality links, while I CAN sell an actual product. How do you suggest this can be achieved?

* This sounds good. After I create this product, what bulletpoints could I use to make people want it and how many features should I list?

* For each of those bulletpoints, please provide me with the benefits and put the whole thing together.

* Now list each bullet point followed by the benefit it gives the user, please.

* Can you please make each bullet point shorter and more dramatic, and each benefit more exciting?

Step 1.) Understand what ChatGPT Can Do For You Creatively But That's Not All!

- * Could that be made even more exciting and dramatic?
 - * Thank you! Let's say that James Bond, 007, was writing the bullet points and benefits. How would that change the result?
 - * Hmm. I don't like the James Bond version, unfortunately (but thank you!). What if Tony Stark who is Ironman from the Marvel movies was writing it? Remember, Tony is a genius with a very sharp sense of humor. Humor could add in the appeal of the results. Could you show those to me?
 - * Would it be possible to use a word only once in the bullet points and benefits? "common problems" shows up twice. I'd like the adjectives and adverbs to show up only once so you'll have to use synonyms.
 - * The word solutions shows up 4 times. Can you please use synonyms there as well?
 - * Solutions still shows up twice. Can you please use a different word for the second usage of solution?
 - * No, that has "common problems and solutions" and "share their own solutions". Please make sure that the word "solutions" show up only once and use a different word for the second usage.
-

Step 1.) Understand what ChatGPT Can Do For You Creatively But That's Not All!

- * OK, let's park that for a moment. When I build a website for this product, I want it to appear in as high a spot in Google as possible. What are the top 20 keywords you would suggest for me to focus on?

 - * Thank you! Could you tell me 15 other ways to get targeted traffic to the product's website that are NOT SEO?

 - * What do you think is the BEST social media platform to do all of the above?

 - * OK. Let's say that I create a Facebook group that talks about the product, and a spammer manages to gain entry. What are 5 ways I can prevent spamming in my Facebook group?

 - * Do you think email marketing would help?

 - * I've heard of this thing "call to action." What would be some good call to actions for my product when doing email marketing?

 - * I notice your examples are very generic. Can you please target them to my product?

 - * Can you make those examples a bit shorter and more exciting?

 - * Thank you very much for your help! I really appreciate your
-

**Step 2.) Find Some of The BEST Social Resources to Discover ChatGPT's Potential
But That's Not All!**

time.

I think you get the idea. 😊

As you tell, this is INSANELY powerful! So your next steps are to:

Step 2.) Find Some of The BEST Social Resources to Discover ChatGPT's Potential

So. You have just seen some rather amazingly incredible examples regarding ChatGPT.

The next step would be to uncover resources to help you master it as much as possible! Let's begin with:

Step 2.) Find Some of The BEST Social Resources to Discover ChatGPT's Potential Social Media You Are Probably Used To

Social Media You Are Probably Used To

One of the best ways to do that is to tackle the wonderful world of Social Media.

Thus, following are some of the BEST I've uncovered.

- ★ [ChatGPT Discord Server](#) – You MUST sign up here, there is a HUGE amount of goodness waiting for you here, Discussions, Examples, Suggestions and more! (This resources by itself is worth the price of admissions for this blueprint)
- ★ [Twitter ChatGPT Tweets](#) – Generic tweets about ChatGPT.
- ★ [Twitter ChatGPT Examples](#) – Examples of what's been achieved by ChatGPT.
- ★ [Twitter ChatGPT Prompts](#) – Prompts you can try yourself!
- ★ [Twitter ChatGPT Collection](#) – This is a great collection of Twitter tweets about ChatGPT

Step 2.) Find Some of The BEST Social Resources to Discover ChatGPT's Potential

Social Media You Are Probably Used To

- ★ [Reddit ChatGPT](#) – the main subreddit that is focused upon ChatGPT
- ★ [Reddit General ChatGPT Search](#) – where ChatGPT might show up elsewhere in Reddit
- ★ [Facebook ChatGPT Search](#) – Here, you can find FB groups, pages and more that relate to ChatGPT.
- ★ [YouTube ChatGPT Videos](#) – All the videos that focus on ChatGPT, great for Visual Learning
- ★ [Quora ChatGPT Prompts](#) – Examples at Quora.com for ChatGPT Prompts
- ★ [Quora ChatGPT General](#) – General questions of ChatGPT

- ★ [LinkedIn ChatGPT Groups](#) – One has 2K members!
 - ★ [LinkedIn ChatGPT Posts](#) – Some fascinating stuff there
 - ★ [Instagram ChatGPT People](#) – Just... wow.
 - ★ [Instagram Posts Tagged with ChatGPT](#) – great material!
-

Step 3.) 25 Powerful ChatGPT Resources You Can Use Right Now
Open your mind!

But truly, there's already so so so much more you can do... AND folks have already created prompts, applications and more!

Thus, armed with the above, let's now add to it resources you can use today. Move to:

Step 3.) 25 Powerful ChatGPT Resources You Can Use Right Now

25 EXAMPLES

Open your mind!

...And see WHERE your mind takes you to via these sites!

NOTE! Keep in mind that some of these examples use (gasp!) coding ideas, while others will simply take advantage of just plain text-based prompts.

Ready for the adventure? **Pounce now upon:**

[10 Best things you can do with OpenAI ChatGPT](#)

[10 Cool Things You Can Do with ChatGPT](#)

[10 Tips for Good Customer Service from ChatGPT by OpenAI](#)

Step 3.) 25 Powerful ChatGPT Resources You Can Use Right Now
Open your mind!

BONUS! Marketing Prompts to Try
Use These For Your Day to Day Marketing!

already signed up and registered for it – if not, revisit [How to Access ChatGPT](#) and then return here)

And then...

... try these prompts and then modify them for YOUR needs.

It's easy to try the prompts – type each prompt into the Chat textfield and hit return. Here's an example of using the first prompt:

The screenshot shows the ChatGPT web interface. On the left is a dark sidebar with navigation links: 'Reset Thread', 'Dark Mode', 'OpenAI Discord', 'Updates & FAQ', and 'Log out'. The main content area is titled 'ChatGPT' and features three columns: 'Examples' (with icons of a sun and lightning bolt), 'Capabilities' (with a lightning bolt icon), and 'Limitations' (with a warning triangle icon). The 'Examples' column lists three prompts: 'Explain quantum computing in simple terms' →, 'Got any creative ideas for a 10 year old's birthday?' →, and 'How do I make an HTTP request in Javascript?' →. The 'Capabilities' column lists: 'Remembers what user said earlier in the conversation', 'Allows user to provide follow-up corrections', and 'Trained to decline inappropriate requests'. The 'Limitations' column lists: 'May occasionally generate incorrect information', 'May occasionally produce harmful instructions or biased content', and 'Limited knowledge of world and events after 2021'. At the bottom, a text input field contains the prompt: 'Could you tell me some authority names in the Copywriting niche?'. A red box highlights this prompt, and a red arrow points to it from a text box on the left that says: 'Here's the first prompt. Type it there. It's also highlighted in yellow in the blueprint "ChatGPT Made Mighty"'. Below the input field is a footer note: 'Free Research Preview: ChatGPT is optimized for dialogue. Our goal is to make AI systems more natural to interact with, and your feedback will help us improve our systems and make them safer.'

You'll love what you discover. Here we go!

* Could you tell me some **authority names in the Copywriting niche?**

ChatGPT Made Mighty
BONUS! Marketing Prompts to Try

About The Author

Welcome! My name is Barbara Ling, and in a nutshell, I'm all about sharing what I've learned over the past decade about authority and creating and running a profitable business online.

My credentials include:

- **Writing 100+ books/eBooks** about various/sundry ways for people to generate income online (entrepreneur, recruiting, real estate, auctions, Mobile, finding a job, safe weight loss, hidden customers, etc.etc.etc.)
- Being quoted/featured/etc. in various publications/blogs online like:
 - <http://www.forbes.com/sites/cherylsnappconner/2013/08/28/do-press-releases-still-matter-yes-but-not-like-you-think/>
 - [Barbara Ling: Secrets of a Veteran Webmaster](#)
 - [Empower Your Children To Out-Earn Their Professors](#)
 - [Nailing a good contractor](#)
 - [Microsoft Small Business Success Story](#)

There's 'way too much to write here....you can visit my [Barbara Ling About Me](#) page to learn more!

And don't forget:

Appendix 1: Additional DAB Goodies

I'm Dennis Becker, and along with my partner, Barb Ling, we're here to tell you...

If you're struggling, I've been where you are, regardless of where you are now.

My IM career started around 2002 (my online experience started in 1998 when I found and exploited eBay big time!), when my main income came from an offline store that wasn't doing so well anymore. I had even racked up (gasp!) over \$300,000 in credit card debt... [Click HERE for the UNEXPECTED Adventure!](#)
